### **Holiday Inn Hotel & Suites Monroe Revamps Website**

**MONROE, LA — May 18, 2006** — The Holiday Inn Hotel & Suites Monroe in Northeast Louisiana re-launched its website this week. The hotel is a member of the Intercontinental Hotel Group and offers 260 well-appointed guest rooms and suites as well as high-speed Internet access throughout the property. The website address is [www.himonroe.com](http://www.himonroe.com) and is live on the world-wide-web. The updated site features a new enhanced look, improved navigation, and easier access to information about the hotel and surrounding area.

“When we did our annual strategic planning recently, one area of opportunity that came up was to improve our existing private website for the hotel. With more and more guests using the Internet to shop for lodging accommodations we wanted to increase our visibility on the Internet,” remarked Dayna Poppen, Director of Sales. “We’ve added new features such as a local events calendar, special information pages, specials and packages, as well as new links to make a reservation. Of course we kept some of our popular features such as local area attractions and businesses,” remarked Ms. Poppen.

The website for the Holiday Inn Hotel & Suites Monroe contains information about the amenities of the hotel as well as regional points of interest, businesses, leisure activities, and restaurants. Guests that book from [www.himonroe.com](http://www.himonroe.com) will be re-directed to the Intercontinental Hotel Group’s branded website for Holiday Inn where the best available rate will be obtained. In addition to the comfort of booking directly from Holiday Inn, the new website assures travelers that they will earn their valuable Priority Club® Rewards points. Priority Club® is Holiday Inn’s industry leading guest loyalty program that earns complimentary stays throughout the Intercontinental Hotel Group network and offers various ways to redeem your points for other travel and merchandise.
